Community Safety Update

1. Introduction

Information on crime levels from the Community Safety Partnership is attached for the period up to June 2011.

- 1.1 Members are reminded that these figures cover incidents where the evidence amounted to a crime. It does not include reported incidents or calls that were not classed as a crime. We have asked for this information to be provided in the future as well to gain a greater understanding of public concerns. However, it may take some time to receive this information given the structural changes ongoing within the Police.
- 1.2 The figures show a 22.5% reduction in reported Domestic Burglary. This is part may be due to the fact that the Community Safety Unit undertook a joint exercise with the Police to Smart Water 750 high risk properties in the South West Ward.

2 Community Safety Unit activity.

- 2.1 As raised previously our recording and reporting mechanisms have historically been very poor. We placed interim measures in place to improve this in April 2010. Since June 2010 we have been in discussions with all our key partners across Lincolnshire to discuss moving this forward. Since 14th March we have been trialling a county wide ASB case management system. We are the lead council for this project and it will involve a consistent and effective approach to managing ASB across Lincolnshire.
- 2.2 The Street Scene trial has commenced in the South West Ward with coordinated daily patrols being coordinated by Gaynor Allen in Community Safety.
- 2.3 ASB reporting option has now been placed on the phone system and Lincolnshire Police will be promoting reporting options for victims later this year.
- 2.4 Grant Lockett, Housing, Renewal and Community Safety Service Manager has been elected Vice Chair of the CSP and will represent us on the County Community Safety Board.
- 2.5 Our Community Safety Team Leader is the Deputy Lead Officer for Lincolnshire ASB Partnership. This partnership reports to the County Community Safety Board and ensures a consistent service is provided to victims across the County. He has also been elected Vice Chair of the CSP performance group.
- 2.6 Officers from the Community Safety Unit now attend 'key' Policing Panel meetings in the district. These include South West Ward, Market Rasen and Hemswell Cliff.

2.7 A draft ASB policy and procedure will be submitted to committee in October.

2.8 Summary of New Incidents and Cases

Community Safety Unit (CSU)

Total number of new ASB cases reported in April to June: 501

Number of live ASB cases with the CSU at the end of June: 254

Number of REPEAT ASB victims: 54

Number of victims that consider they are VULNERABLE:76

More detailed information will be available from the new Sentinel ASB case management system at the end of quarter 2.

3 Conclusion

3.1 We have now improved reporting and case management capacity for Community Safety. We recognise that we still have a long way to go and the Sentinel case management system and the procedures being built around this will take us forward again.
