Introduction

Councillors have received progress and delivery reports since 2012. They have sought to give councillors information on how the council is performing through its services, project delivery and finances. This has given councillors the opportunities to question officers on performance and ensure that any rectification measures proposed to remedy poor performance are sufficient to tackle the issues identified.

This report includes information about the performance of the services the council is delivering in order to meet the objectives it has set itself in the corporate plan.

It also includes performance information in relation to current projects which are in the delivery stage.

This report does not include the monitoring information about progress and delivery of the Corporate Plan specifically nor the Commercial Plan. The Commercial Plan measures will be reported to the Committee in December 2016.

For clarity this report will provide information on those services that are either performing below their target level or have exceeded the performance expected of them. This will be done within certain tolerance levels therefore services which are just below their target performance will not be reported at this stage, but will be monitored through the council's services leadership team. Generally explanations and rectifications are given where an aspect of a service is performing below the required standard.

In addition the report will contain information on services which were included in the last period's exceptions report, but have subsequently improved to the extent that they are not included in this report. This is to demonstrate to members that remedial measures which have been put in place are working.

How to use this report

RAG Performance Indicators

| \bigstar | Performance against this indicator is better than the set target |
|------------|--|
| | Performance is in line with its target |
| | Performance is lower than predicted |

Direction of Travel

| \uparrow | Performance is improving |
|---------------|---------------------------------|
| \rightarrow | Performance is remaining static |
| \downarrow | Performance is declining |

Executive Summary

This report reflects the performance of the council in the first six months of the 2016/17 municipal year (April – September).

Rather than splitting the executive summary into the same divisions as the report, as was done in June, the summary is structured to highlight those areas that are performing above expectations, those areas where there is a risk to either performance or delivery and those areas where further work is required for next year's report.

Performing Well

Building Control

The Council has made significant investment in the Building Control service to equip the team to compete effectively in the market. The benefits of this are starting to be realised with a small increase in fees when compared to 2015/16, however the construction sector continues to be volatile and there is still work to be done to ensure this trend continues long term. Work has now started on delivering additional services highlighted in the Business Plan. Air testing has just been launched with Fire Risk Assessments following shortly. It is likely that warranty work in conjunction with Local Authority Building Control (the national accreditation body for the service) will start this year.

Development Management

During quarter two Development Management has sustained and continued to build upon the significant improvements in performance achieved during the latter part of 2015 and early 2016. Fee income from planning applications has exceeded budget targets each month and for the year to date is notably higher than the same period in 2015/16. This work has established the building blocks for the service to ensure that it now starts to improve areas such as customer care, although the volume of complaints the service receives is starting to reduce.

Projects and Growth

The Team is focussed on the Gainsborough Growth Programme, the Food Enterprise Zone at Hemswell Cliff and wider economic development initiatives such as the Lindsey Action Zone and the potential for industrial units at key sites such as Saxilby.

In Gainsborough, the 'Development Prospectus' was launched over the summer and progress has been made on procurement of a Strategic Development Partner; funding bids have been made to both Heritage Lottery Fund and Historic England to assist in the restoration of town centre properties; the Gainsborough Place Board has been launched and a range of key stakeholders are signed up as 'Ambassadors' for the town; Council support has been secured for the redevelopment of the Sun

Hotel and for a joint venture company to regenerate Market Street; feasibility work has progressed for a marina in the town and a further funding bid has been made to assist with infrastructure costs which will help to unlock key housing sites. The Gainsborough Growth Fund also continues to assist new and growing firms in the town. Works to upgrade the footways along Beaumont Street and Trinity Street have been undertaken, working with Lincolnshire County Council.

In the wider District, the Lindsey Action Zone continues to assist West Lindsey businesses, most recently through the award of a grant for the expansion of Hall Farm Park. The upgrading of the road access to Newtoft Business Park has also been delivered as a joint initiative between the Council and the local business community. An evaluation of the Townscape Heritage Initiative in Caistor is underway, which will inform future action in the town and the Council is considering the potential to take a lease on new workspace units in Saxilby.

Other measures such as the investigation of discretionary rate relief for businesses and the implementation of the selective licensing scheme in the south west ward of Gainsborough are all helping to deliver corporate plan objectives.

CCTV

The complete upgrade the CCTV system is nearing completion. The latest high definition CCTV cameras are operating in Gainsborough and Market Rasen. The system upgrade has resulted in savings on our line rental costs and has prepared us for future expansion and the commercial marketing of the service. Already during September 2016 our CCTV Control Centre assisted with over 60 incidents.

With the greatly improved CCTV quality we have supported a wide range of police and criminal investigations. Examples have included public order, assaults, criminal damage and burglaries in both Gainsborough and Market Rasen.

Risks

Local Land Charges

The service has a good reputation for quality and accuracy and because of this maintains a core customer base. A new automated system for Local Land Charges has been procured and is being implemented, with an anticipated completion date of April 2017 and this will significantly improve search processing times. Until the new system is fully functioning the service faces a challenge to consistently turn around searches within the 10 day target using the current manual system. Additional resources have been allocated to the service in order to keep turnaround times for searches within the 10 day target in the interim.

Enforcement

The increase in demand on enforcement services is increasing across all areas and continues to remain at a high level in planning enforcement. Work is being

undertaken to identify why this increase is continuing at a sustained level and ensure that cases are dealt within in accordance with the adopted policy.

Markets

Markets continue to underperform and whilst a final decision is awaited on proposals to improve their performance, measures are being taken to reduce operation costs which do not prejudice any of the options under consideration by members.

Home Choices

Demand on the home choices service for people in housing need and those at risk of homelessness is increasing. We have seen a marked increase in new approaches to the service, homelessness presentations and temporary accommodation usage.

Temporary accommodation: the Cross Street provision has been full to capacity leading to a need to utilise B&B accommodation, particularly during September 2016. During September 2016, £1517 was spent on additional B&B accommodation. The team is working hard to ensure homelessness applications are processed as quickly as possible and the need for B&B alleviated; demonstrated in the average length of stay measure however, the increased demand and complexity of cases the team is dealing with must be recognised. This has had a direct impact on capacity to proactively prevent homelessness – performance in this area was lower in September 2016 and the service will be actively working to improve this this against a backdrop of increased demand.

The service will complete some specific performance monitoring activity on housing register allocations during November 2016 and a review of the measure regarding 'successful nominations' is proposed for 2016/17.

Further Work

Complaints can be a good source of intelligence on how a particular service is performing and how it can be improved to better meet the needs and expectations of customers.

At the present time the total volume of complaints are recorded within each service and these are aggregated and reported to members as part of the corporate health measures set out in the progress and delivery report.

It is fully accepted that this is a crude way of handling complaint information and a more sophisticated approach is needed which is able to identify trends in complaints, highlight particular areas or services which are subject to high levels of complaints and key themes in complaints the council receives. More importantly from an organisation point of view techniques need to be developed which will enable services to act on information from an analysis of complaints which can make a tangible difference to the service customers receive. This is more than just improving the response to individual complaints it is about learning from all complaints and changing systems and process so that the scope for that type of complaint recur is eliminated.

For the 2016/17 municipal year the way we report complaint information will be reviewed in order to give members information on complaints which gives them a better insight into what customers complain about and how action is taken to ensure we deal with the causes of complaints.

Section 1: Corporate Health Measures

| Performance Measure | Reporting | | Current Per | | Previou | us Period | YTD | What is affecting | What do we need to | |
|--------------------------|-----------------|--------|-------------|------|---------|-----------|-------|-------------------|---|---|
| | Frequency | Actual | Target | Perf | DoT | Actual | Perf. | perf. | What is affecting performance | do to improve and by when? |
| Perspective: Cu | stomer | | | | | | | | | |
| Employee satisfaction | Under review | | | | | | | | The measures and frequency of reporting of this measure is currently under review and will be reported in full before the end of the municipal year. | The staff engagement group are working on a number of initiatives to improve staff engagement and satisfaction, the group will agree the next steps for collecting staff satisfaction data. |
| Complaints | Monthly | 54 | 28 | • | N/A | 32 | | • | Of the 54 complaints received in this period we received 1 informal complaint, 34 stage 2 complaints and 8 stage 3 complaints. Of these 12 were in relation to Waste Services, 10 in relation to Development Management, 7 in relation to Planning Enforcement, 6 in relation to Housing, 5 in relation to Home Choices, 4 in relation to Council Tax, 3 in relation to Housing Benefits, 2 in | Complaints provide a good source of data within which patterns can be identified and improvements made to processes and how customers are dealt with. In some services decisions the council takes will always disappoint a customer. It is incumbent on the council to ensure that all customers are dealt fairly, reasonably and with curtesy as well as |

 Table 9: Commercial Plan Measures

Benefits

The average time to calculate new claims and changes to existing claims is significantly better than 2015/16, this is attributed to receiving fewer new claims this year and a slight drop of 100 in the number of live claims we currently have. The cost per claim has also reduced when compared to 2015/16 which is due to scrutiny of the Housing Benefits team budget and changes in the way the team are working. The team are now awaiting final details of the new Benefit Cap which will be implemented from November 2016 affecting a further 120+ families within the Local Authority area.

| Processing times | Monthly | 4.8 | 6 | * | Ļ | 4.6 | * | * | Processing times for new claims and changes to existing claims is above target as the number of new claims received in Q2 has decreased slightly when compared to 2016/17. | No improvement required | | | |
| Volume of claims older than 30 days | Monthly | 23 | 30 | * | ↑ (| 28 | • | * | The volume of claims taking over 30 days to process during Quarter 2 has reduced due to there being fewer new claims received than in 2016/17 and the Benefits Assessment team concentrating on 'managing' claims through the process as quickly as the claimants can comply. | No improvement required | | | |

Table 10: Benefits measures

Council Tax

Council Tax and Business Rate collection rates continue to remain on target for year end and since the majority of appeals have now been settled for business rates the rateable value has begun to steadily increase. The number of customers opting to pay by 12 instalments continues to increase each month in respect of both council tax and business rates and this may be aiding customers to pay their instalments.

Building Control

The Council has made significant investment in the Building Control service to equip the team to compete effectively in the market. For the past 3 years Building Control have been focusing on improving and developing its services, through building relationships, improving reputation and raising the profile of the team with potential customers. The benefits of this are starting to be realised with a small increase in fees when compared to 2015/16, however the construction sector continues to be volatile and there is still work to be done to ensure this trend continues long term. Work has now started on delivering some of the additional services highlighted in the Business Plan. Air testing has just been launched with Fire Risk Assessments following shortly. Other members of the team are booked on training courses over the next 6 months, including warranty work in conjunction with Local Authority Building Control (the national accreditation body for the service), providing a very exciting opportunity for the authority.

Local Land Charges

The service has a good reputation for quality and accuracy and because of this maintains a core customer base. A new automated system for Local Land Charges has been procured and is being implemented, with an anticipated completion date of April 2017 and this will significantly improve search processing times. Until the new system is fully functioning the service faces a challenge to consistently turn around searches within the 10 day target using the current manual system. Additional resources have been allocated to the service in order to keep turnaround times for searches within the 10 day target in the interim.

In this period the service has lost experienced staff and replacements have taken to time to find and train. | In the meantime staff have been recruited on a temporary basis to keep the turn-around times for searches within the 10 day target. Once the new system is implemented search times will significantly improve and resilience will be increased. |

Table 11: Local Land Charges measureexceptions

Development Management

During quarter two Development Management have sustained and continued to build upon the significant improvements in performance achieved during the latter part of 2015 and early 2016. Fee income from planning applications has exceeded budget targets each month and for the year to date is notably higher than the same period in 2015/16. The number of invalid applications remains high but is being directly addressed as part of the service changes taking place as the new ICT system is introduced. In October Challenge and Improvement Committee considered a report on performance in development management and commended the service for the progress made and considerable achievements in improving the service for customers.

| Performance | Reporting | (| Current Pe | riod | | Previo Perio | | YTD | What is affecting | What do we need to do to improve and by |

Table 12: Development Management measure exceptions

Enforcement

The increase in demand on enforcement services is consistent across all areas and continues to remain at a high level in planning enforcement. Work is being undertaken to identify why this increase is continuing at a sustained level. An officer returning from maternity leave will provide additional resources within this area, which should reduce the caseload before the end of the year. The number of priority cases across housing and planning continues to lead to formal action, prosecutions and the serving of notices.

 Table 14: Environmental Protection measure

 exceptions

Food Safety

Performance is still on target for this service, however there has been a fall in number of targeted inspections in period 2. This has been due to a small number of inspections resulting in voluntary closures of the business and the time take to work with the business in order to ensure public safety is maintained.

Licensing

The licensing service continues to operate consistently, particularly with regards to the number of applications received compared with the same period last year. 96% of applications were processed within the agreed timescales, with only 1% of applications being put before Members of the relevant Sub-Committee for a decision. The current period has overachieved income by approximately £12.5k, however this is <u>not</u> expected to continue due to an expected fall-off in taxi driver applications, brought about by changes to legislation, which will be reflected throughout the year. Both Animal Welfare & Gambling income have performed well.

exceptions

Waste Collection

All waste collection measures are on target apart from missed bins, this is due to high rates of sickness this year and resultant use of inexperienced agency staff. The recycling rate appears to be on target, there will be a downturn when the garden waste service closes in winter. Income generating services within waste are performing well, especially second garden waste bins and the commercial waste service.

Trinity Arts Centre

Performance has improved this quarter since the roof works have been concluded which is demonstrated by the surplus generated from the artistic programme being on track. Good audience numbers are being recorded again now the roof works have been concluded and further enhancements will ensure this trend continues.

It remains difficult to accurately reflect performance of the Centre against progress and delivery targets as fluctuations in monthly expenditure do throw the figures out. For example in September TAC received an electricity bill, had the season brochures printed and paid out for maintenance work that a grant will cover once repaid. This shows the costs of the Centre to be high in the month but over the year this will even out.

| Performance Measure | Reporting | | Current Pe | riod | | Previo Perio | | YTD perf. | What is affecting performance | What do we need to do to improve and by |

 exceptions

Democratic Services

There is a robust personal assistant service in place and positive feedback from Chief Executive and Directors. Standards complaints continue to be received from Parish Councils regarding governance issues. The Freedom of Information process has been redesigned to embed efficiencies and automating of the process where possible. There are two large projects being run within the team on top of the day to day work, embedding and maximising the potential of the new automated committee system (Modern.gov) and exploring the Governance arrangements of the council.

Financial Services

The service has achieved an unqualified audit opinion on the 2015/16 Statement of Accounts and Value for Money assessment. With the statutory deadline for the 2017/18 Statements being brought forward to 31.5.2018, the team had challenging deadlines this year to produce the statements by the earlier date. This has identified where further efficiencies in procedures need to be made.

The implementation of a Bank Reconciliation system is now finalised, and this will achieve daily bank reconciliations and efficiencies within this important process. The Treasury staff continue to exceed investment interest benchmark targets albeit rates are at an all-time low. In conjunction with budget managers, a base budget review has been undertaken which has identified £147k of ongoing savings.

Projects and Growth

The Team is focussed on the Gainsborough Growth Programme, the Food Enterprise Zone at Hemswell Cliff and wider economic development initiatives such as the Lindsey Action Zone and the potential for industrial units at key sites such as Saxilby.

With regards to Gainsborough, the 'Development Prospectus' has been launched and progress has been made on the procurement for the Strategic Development Partner (a separate committee paper provides further details on this); funding bids have been made to both Heritage Lottery Fund and Historic England to assist in the restoration of town centre properties; the Gainsborough Place Board has been launched and a range of key stakeholders are signed up as 'Ambassadors' for the town; Council support has been secured for the redevelopment of the Sun Hotel and for a Joint Venture company to regenerate Market Street; Feasibility work has progressed for the marina site and a further funding bid has been made to assist with infrastructure costs which will help to unlock key housing sites. The Gainsborough Growth Fund also continues to assist new and expanding firms in the town and works to upgrade the footways along Beaumont Street and Trinity Street have been undertaken, working with Lincolnshire County Council.

In terms of the wider District, the Lindsey Action Zone continues to assist West Lindsey businesses, most recently through the award of a grant for the expansion of Hall Farm Park. The upgrading of the road access to Newtoft Business Park has also been delivered as a joint initiative between the Council and the local business community. An evaluation of the Townscape Heritage Initiative in Caistor is underway, which will inform future action in the town and the Council is considering the potential to take a lease on new workspace units in Saxilby.

Finally, an Environmental Impact Assessment is underway as part of the Food Enterprise Zone, in order to secure the Local Development Order for the site. The project has also been shortlisted for major capital funding through the Greater Lincolnshire Local Enterprise Partnership to support infrastructure delivery costs.

Enterprise and Community Services

Following a re-structure the service has now been renamed 'Enterprise and Community Services'. The service plan for the service is currently being written which will involve the identification of a relevant measure set.

CCTV

The complete upgrade of our CCTV system is nearing completion. We now have the latest high definition CCTV cameras operating in Gainsborough and Market Rasen. The system upgrade has already resulted in savings on our line rental costs and has prepared us for future expansion and commercial development. A new incident recording system has been developed. We are in the process of backdating this to 1st April 2016. When completed this will produce a full financial year of statistics and create a baseline to use in 2017/2018. Already during September 2016 our CCTV Control Centre assisted with over 60 incidents. A breakdown of incidents will be available in future progress and delivery reports.

With the greatly improved CCTV quality we have supported a wide range of police and criminal investigations. Examples have included public order, assaults, criminal damage and burglaries in both Gainsborough and Market Rasen.

Housing

Housing services continue to perform well and deliver for residents across the District. The demand for Disabled Facilities Grants is consistent and the service continues to perform strongly when compared to the rest of the County. The average spend increase relates to the high level of complex cases that we are currently dealing with. The total number of long term empty homes continues to decrease and is a reflection of the positive work undertaken by officers. In relation to this a number of compulsory purchase orders are being explored for the very poorest condition long term empty properties.

Home Choices

Demand on the home choices service for people in housing need and those at risk of homelessness is increasing. We have seen a marked increase in new approaches to the service, homelessness presentations and temporary accommodation usage.

Temporary accommodation: the Cross Street provision has been full to capacity leading to a need to utilise B&B accommodation, particularly during September 2016. During September 2016, £1517 was spent on additional B&B accommodation. The team is working hard to ensure homelessness applications are processed as quickly as possible and the need for B&B alleviated; demonstrated in the average length of stay measure however, the increased demand and complexity of cases the team is dealing with must be recognised. This has had a direct impact on capacity to proactively prevent homelessness – performance in this area was lower in September 2016 and the service will be actively working to improve this this against a backdrop of increased demand.

The service will complete some specific performance monitoring activity on housing register allocations during November 2016 and a review of the measure regarding 'successful nominations' is proposed for 2016/17.

Table 24: Home Choices measure exceptions

Healthy District

The leisure contract continues to perform well. Customer satisfaction is consistently high across the whole of the contract. The majority of the information comes from monthly surveying of customers together with intelligence from customer comments and complaints. During the quarter no poor scores have been recorded in connection with customer service.

The cost per user has continued to be ahead of target. This is mainly due to the high levels of usage at West Lindsey Leisure Centre and the reduction in management fee negotiated in October 2013 providing value for money. A range of marketing activity mixed with a good range of activity being offered attracts a steady stream of new customers.

Usage at West Lindsey Leisure Centre in particular remains high. Issues over the correct recording of users for multiple user activities (i.e. badminton and squash) have been rectified. Usage at the satellite school sites continues to be of concern but these sites are not being included in plans for new contracting arrangements from 2018.

This has now been moved to a cloud hosted solution and therefore available 24/7 with full monitoring capabilities and alerts. |

Table 27: Systems Development measure exceptions

Contracts Management

The overview and on-going management of contracts is currently performing well. Pro-active work is undertaken to highlight contracts that are due to expire and pro-active work ensures that the appropriate review mechanisms is in place. We will continue to keep up this good work to ensure that consistency is applied to Contracts Management.

| Performance Measure | Reporting Frequency | | Current Pe | riod | | | Previous Period | | What is affecting performance | What do we need to do to improve and by |

Table 28: Contracts Management measure exceptions

Corporate Governance

A recent Internal Audit has identified the value of Approved Codes of Practice and made recommendations that these are reviewed and subsequently updated and promoted; this work is scheduled in for Period Three of 2016/17. The volume of outstanding risks and audit actions that have expired are high due to the six month point.

| Performance Measure | Reporting Frequency | Current Period | | | | Previous Period | | YTD perf. | What is affecting performance | What do we need to do to improve and by |
