# FEES AND CHARGES REPORT APPENDIX 6 - LICENSING SERVICES

## 1. Service Description

The Licensing Service processes many different types of licences, the majority of which but not all, incur a fee for the service we provide and can be broken down into the following categories:

• <u>Licensing Fees – which are statutory set fees</u> dependent upon type of application, the details of which are known by the Team Manager each year. The majority of these are derived from alcohol, entertainment and late night refreshment, all of which are governed by the Licensing Act 2003. It is important to note that the mandatory fees applied under this legislation have not been amended since the regime commenced in 2005 and in some cases we cannot recover our costs. Typically fees within this category are set for the sale of alcohol and entertainment in pubs, clubs, off-licences and supermarkets.

• <u>Licensing Fees – which are totally discretionary</u> gives us the opportunity to set the fees accordingly to recover the costs incurred. Typically fees within this category are set for dog breeding, boarding, pet shops, riding establishments, sex establishments and scrap metal etc.

• <u>Licensing Fees – which are partially discretionary</u> which allows us to set the fees to recover costs, however the fees we set are limited to prevent going beyond a statutory ceiling. Typically fees within this category are set for betting shops, betting tracks, bingo and adult gaming premises etc. all of which are governed by the Gambling Act 2005.

• There are also a number of applications that we process whereby we are prevented from setting any fee, such as house to house collections, street collections and some caravan site licences.

Whilst some of the fees are partially statutory charges the authority has the flexibility to set the fee up to a maximum. As with other service areas we are required to comply with the relevant regulations when compiling the fees and must be ready to justify the levels of fees which are approved. Licensing income cannot be used to subsidise other areas of work which the council undertakes and once any fees have been set there is always the potential risk that these can be challenged through the courts.

#### 2. Prior years analysis, current financial year projections

The graph below illustrates income received compared to applications received over the last three years and a forecast for the current year. A full analysis of fees and charges has been undertaken with a view to achieving full cost recovery. Some fees are limited as they have a price ceiling that we cannot breach.

	2018/19	2019/20	2020/21	2021/22
Applications Received	960	982	451	949
Income Received	£131k	£122k	£105k	£130k

The table below highlights actual income achieved against budget for the last three financial years and a forecast for 2021/2022. Many of the fees within the Licensing service are statutory, or statutory with a ceiling range as to what we can charge.

	Total	Budget	Under/ (Over)
Income Received 2018/19	130,629	118,700	(11,929)
Income Received 2019/20	122,316	118,700	(3,616)
Income Received 2020/21	104,475	104,000	(475)
Income Received 2021/22 Forecast	129,700	129,700	0

### 3. COVID Impact

Many of the businesses that pay fees and charges within this work area have been significantly affected by the pandemic. In the main the income has not decreased in a manner which was first feared as there have been no concessions made within the licensing fees by Government during this period. There may be a need to review this position for the following year, when the full impact of the pandemic is understood.

### 4. Pricing

Inflationary increase of 3.9% has been applied for all non-statutory fees that WLDC have the powers to set unless the statutory maximum has been reached. The proposed increases have been applied with a view to achieving total cost recovery, and to be consistent with charges being applied by neighbouring Authorities.

### 5. Understanding Customers and Markets

The service has not carried out any customer satisfaction surveys relative to fee setting. 98% of licence applications are processed within the agreed timescales, the majority of which are from the statutory regime, which in turn have their own set turnaround times which we have to comply with, therefore it is highly unlikely that there is any scope for applicants to pay more for a faster turnaround.

### 6. Proposed Charging

Statutory charges will be applied in accordance with legislation.

For other charges the Licensing Service proposes to apply an inflationary increases of 3.9%. Total cost recovery has been achieve in most areas where others area. The rest have recovered controllable overheads as a minimum.

\* To comply with legal requirements relevant licence fees are now made up of two parts. Part A is payable upon application, and Part B is only payable if the licence is granted and must be paid prior to the licence being issued. Applicants may, if they wish, pay both parts together at the time of the application but are under no obligation to do so. If an applicant does pay both parts of the fee at the time of the application and the licence is subsequently refused Part B will be refunded.
