

**APPENDIX 2**

	<b>Likelihood</b>	<b>Impact</b>	<b>Mitigation</b>
<b>Future available resources less than assumed</b>	<b>Likely</b>	<b>High</b>	Annual review of reserves. General Fund Working Balance increased Volatility/Contingency earmarked reserves in place. Planning for future reductions above those assumed in the MTFP would be implemented. However the GFB can support any medium term shortfall.
<b>Commercial Projects do not deliver anticipated benefits</b>	<b>Possible</b>	<b>Medium</b>	Project management and monitoring. Risk Register for each project Appropriate and robust due diligence. Commercial contingency of £200k in base budget
<b>Council is unable to provide a balanced budget in future years.</b>	<b>Unlikely</b>	<b>Medium</b>	The Council has an adequate level of General Fund Reserves to support balancing the budget over the MTFP should it be required.
<b>Volatility of Business Rates</b>	<b>Possible</b>	<b>Medium</b>	Volatility of funding stream outside of Council control but impact mitigated by establishment of contributions to an earmarked reserves.
<b>Pay and price increases above budgeted assumptions</b>	<b>Possible</b>	<b>Medium</b>	Assumption of 2% pay increase annually built into MTFP. Contractual inflation is included in budget. Average utilities % applied. Improved commissioning and procurement expected
<b>Future spending plans</b>	<b>Possible</b>	<b>Low</b>	All Services carry out effective horizon scanning with profile of service demands (past and future). This informs the MTFP budget modelling throughout the year. Pressures are dealt with as they arise. Contingencies and risk reserves in place.
<b>Anticipated savings/ efficiencies not achieved.</b>	<b>Possible</b>	<b>High</b>	Impact on longer term financial planning. Regular monitoring and reporting take place. Future funding unknown post 2022/23 but the size of the funding cuts increase the likelihood of this risk. Non achievement of savings would require compensating reductions in planned spending within services. A principle is

			in place to maintain General Reserve at a minimum of 10% of Net Operating Expenditure, this has been increased to £2.5m represents circa 19% due to future funding and economic uncertainty.
<b>Income targets not achieved.</b>	<b>Likely</b>	<b>Medium</b>	Income has been substantially affected and in the current economic climate recovery is likely to take some time. A commercial contingency budget of £200k mitigates impacts. Regular monitoring and reporting is undertaken with a full review of fees and charges annually which incorporates trend analysis and future demand estimations. Commercial trading monitor volumes and pricing. Appropriate due diligence for commercial property investments undertaken.
<b>Revenue implications of capital programmes not fully anticipated</b>	<b>Possible</b>	<b>Low</b>	Capital bid approval identifies revenue implications and links to Council priorities. Full analysis of revenue implications assessed and considered in scenario planning and in business case development.
<b>Loss of principal investments</b>	<b>Unlikely</b>	<b>Medium</b>	Limited by the controls in the Treasury Management Strategy which prioritise security of deposit over returns on a risk based approach. Impact limited due to the strategy of a diverse portfolio with high rated institutions.
<b>New duties imposed by Government</b>	<b>Likely</b>	<b>Low</b>	It has already been stated that new duties will be transferred to districts, however this will be considered in line with the retention of NNDR. Proactive preparation will be undertaken to engage early and influence the outcome. The availability of general reserves will also help smooth any initial financial impact, pending any reallocation of resources. In the event of new requirements being imposed 'new burdens' funding would also be sought.
<b>Review of NNDR Retention Scheme</b>	<b>Likely</b>	<b>Medium</b>	Government proposals for 75% of NNDR retention locally will have an impact on the resourcing of WLDC it is not yet known what future income

			levels will be, although it is assumed that we will revert to a 2013/14 baseline, therefore no growth since this period will be awarded. There will still be a need for government to distribute resources through a Top Up and Tariff system. MTFP assumes baseline funding as per 2013/14 from 2023/24 onwards. £1m contingency reserve created to mitigate any medium term funding gaps.
<b>The cultural change and capability required to deliver against the Council's aspiration may not be realised as quickly as the financial cuts, as changes in business models can take large organisations a number of years to realise regardless of the sector.</b>	<b>Possible</b>	<b>Low</b>	The officer Portfolio Board will ensure that the project management framework is effective and that robust business cases are developed prior to approval of projects and that projects are monitored, with issues being raised and escalated at an early stage for consideration.
<b>The assumptions contained within the MTFP are not realised.</b>	<b>Likely</b>	<b>Low</b>	Prudent assumptions are included in MTFP. A contingency budget, the General Fund Working Balance, in addition to a significant amount of reserves are held to mitigate any in year financial risks or volatility relating to income, or increases in expenditure, and which can be utilised in the event of variations to the assumptions made
<b>Recruitment and Retention of skilled staff</b>	<b>Likely</b>	<b>High</b>	The increased use of agency/ consultants brought in to do the right jobs.
