Executive Summary

A full review of WLDC Progress & Delivery (PD) measures have been completed with Team Managers and Assistant Directors in preparation for the financial year of 2022/23. An overview of the sessions is contained within the Executive Summary of the report with detailed service specific scorecards within the appendices.

Feedback from Member Engagement Session

A Member working group was held on 01st December 2021 to review the proposed P&D measures and targets. This was facilitated by the Change, Performance and Programmes Team Manager and the Change, Project and Performance Officer. The focus of the session was on those measures that have been deleted or amended, as well as proposed new measures. Feedback from the session is as follows:

- **Percentage measures** – members wished to see the values that make up the percentage calculation. It is recommended that the total value is shown within the measure definition whilst the actual number is to be articulated within the report narrative.
- **Removal of Democratic Services measure sets** – members proposed the removal of the three measures recommended to be included for Democratic Services as officers have no control over their performance. These measures include 'Satisfaction with member training and development events', 'Attendance at mandatory member training' and 'Attendance at non-mandatory member training'.
- **Leisure Contract** – measure to be included to show non-member usage of the facilities to identify those users who pay as they go and that aren't members.
- **Markets** – re-naming of measure set to 'Gainsborough Market' to show the localisation of performance

Climate Change and the Sustainable Environment

The Council recognises the urgency and importance of its role in tackling climate change and is committed, through its Sustainability, Climate Change and Environment Strategy, to reducing its carbon footprint to net zero by 2050.

In October 2021, a Corporate Policy and Strategy team was formed to lead on this area of work and coordinate the delivery of the Strategy's corresponding Action Plan. It is the Council's intention to begin reporting on a basket of climate related performance indicators through Progress and Delivery reporting from April 2023 onwards and, over the coming months, the team will be working in consultation with key stakeholders to design, baseline, benchmark and test these measures.

In addition to P&D reporting, the Council will be taking full advantage of other reporting mechanisms to demonstrate its commitment to achieving net zero, including

a report to Full Council in spring 2022 detailing progress against the implementation of the Strategy; and the publication of additional reports which track and monitor greenhouse emissions. Achieving net zero requires commitment from across the Council and the wider district and, in recognition of this, delivery of the Action Plan will be supported by a clear and comprehensive internal and external communications strategy.

New measures

The workshops identified the opportunity to introduce a new set of measures; over a half of these indicators relate to Communities and ICT. Communities feel that a broader range of KPIs will allow for a better narrative to be given to stakeholders. ICT have indicated a preference to show help desk performance broken down by request type, rather than a general view of performance, will give greater management information to improve the service that is delivered.

As these are new measures, no targets will be allocated and performance will be included in each PD report. 2022/23 performance will be used to baseline performance and inform an appropriate target for 2023/24.

Measures amended

The below table shows the measures that are being recommended to be amended, the majority of which sit with Home Choices and Leisure Contract. Home Choices felt that a move to measures aligned to statutory obligations will allow for a better narrative to be given to stakeholders as often special cases can impact service performance. The Leisure Contract believe that a focus on levels of activity rather than people through the turnstiles will give a better overview of activity levels within the facilities and greater align to the strategic aims of the centre.

Service	2021/22 Measures	Amended measure
Portfolio: Homes and Communities		
Home Choices	Number of nights spent in temporary accommodation	• % of households spending 56 nights or more in leased accommodation
	Number of nights spent in bed and breakfast accommodation	• % of householder that spend 35 nights or more in B&B accommodation
	Homeless Prevention	• Number of homelessness approaches with positive outcomes
	Homeless Relief	
Homeless prevention as a % of total		
Portfolio: Operational and Commercial Services		
Leisure	Leisure facilities usage – Gainsborough	• Number of individual leisure centre members
	Leisure facilities usage - Market Rasen	
	Number of individual users – Gainsborough	• Number of members visiting the leisure centre at least once per week • Number of members using the wet side at least once per week
	Number of individual users - Market Rasen	
	Number of individual users visiting the Leisure Centres at least three times a week	
TAC	Audience figures	• Audience figures as a % of capacity
Ops	Missed black and blue bin collections collected within 5 working days	• % of missed black and blue bins collected within 5 working days
Portfolio: Change Management and Regulatory Services		
Enforcement	The number of community safety cases closed following compliance	• % of community cases closed following compliance

Measures Removed

The review identified that a series of measures that are deemed no longer relevant and it is recommended that these are removed from the framework. These measures are spread throughout the Council and are shown in the below table. It is recommended that this measure is removed from PD and an annual assessment and internal benchmarking is undertaken to ascertain performance.

Service	Measure	Reason for non-inclusion
All	Cost of delivering the service per head of population	Remove, internal benchmarking to be undertaken against performance.
Portfolio: Finance and Property		
Assets & Facilities Management	Rental income - car parks	Monitored through Commercial Board and budget monitoring. Out of control of the team.
	Rental income - received assets	Reported into Commercial Board; performance is dependent on market value and tenant agreement. Rental void is a more telling measure.
Portfolio: Homes and Communities		
Homes, Health & Wellbeing	% of long-term empty properties that have been brought back into use	It is recommended that this measure is deleted. In line with the Council's agreed policy, there is currently no resource or officer proactively dedicated to this area of work. It is recommended that the narrative of the P&D report is used instead to report progress against related project work that the Council has a direct influence over.
	Affordable housing completions	This measure now sits under the new Planning and Housing Delivery Team Manager. This measure will therefore be moved to sit with that team accordingly. Discussion re measure and target to be held once new Housing and Planning Delivery Manager is appointed.
Home Choices	Households housed from the Housing Register	This measure is to be reported as a service measure
Communities	Number of commercial customers using the CCTV service	The measure doesn't align to Corporate Plan theme/outcome or the purpose/wider objectives of the service.
	Number of shop watch customers using CCTV service	The measure doesn't align to Corporate Plan theme/outcome or the purpose/wider objectives of the service.
Portfolio: Operational and Commercial Services		
Contract Management	Challenges to the procurement exercise that are upheld	It is recommended that this measure is removed as we have never received a challenge to the procurement exercise. Any challenge that may emerge would also be made to Lincolnshire County Council as the lead authority for the procurement exercise.

Service	Measure	Reason for non-inclusion
Crematorium	Percentage of services that are direct funerals	This measure includes information that is duplicated elsewhere in the report.
Green Garden Waste	Missed garden waste collections	This is a legacy measure to monitor missed collections when service began. Performance has been consistently better than target and there have been no issues with missed collections
Leisure	Maintain external quest accreditation	Accreditation now takes place every two years as opposed to annually. It is therefore recommended that this is removed as a performance measure and instead reported through the narrative of the P&D report.
Trinity Arts Centre	Total amount of income retained by Council	Doesn't provide Members or Management Team with useful information. Also not possible to compare a direction of travel as retained income depends on the number and type of performance held which varies each month / quarter / year
Street Cleansing	Number of volunteer litter picks	Once a group has registered for, and been supplied with a kit, they carry out litter picks independently and the Council has no way of recording how many picks are carried out beyond the initial point of contact.
Portfolio: Regulatory Services & Change Management		
Housing Benefit & Local Council Tax Support	Cost per live claim	Measure to be removed and managed at service level. Performance is out of control of the service as it is dependent on DWP funding.
ICT	Number of helpdesk requests received	This measure doesn't tell us anything meaningful as these figures could include any logged request. Report as a service level and feed into the partnership meeting
	Average number of hours taken to resolve a helpdesk request	
	Number of change management requests received	
	Number of change management requests completed	
Regulatory Services	Cost of delivering the service per food safety inspection	Not a statutory requirement in the Local Authority Enforcement Monitoring System (LAEMS) data return. Difficult to calculate and not useful or informative. LAEMS more concerned with how many FTEs and how many inspections are done
Portfolio: People and Democratic Services		
Democratic Services	Satisfaction with member training and development events.	Out of the control of the service

Service	Measure	Reason for non-inclusion
	Attendance at mandatory member training and development.	
	Attendance at non-mandatory member training and development events.

C2: Home Choices

2022/23 Proposed Measure Set

Measure	Freq.	2021/22 Target	Proposed Target
Number of homelessness approaches with positive outcomes. *amended* The number of homelessness approaches to the service that result in a positive outcome. This could be that the homelessness has prevented (pro-active action providing people with the ways and means to address their housing and other needs to avoid homelessness), relieved (re-active action taken to help resolve homelessness) or accepted (cases not relieved within the 56 days relief duty stage, move to main duty where the case is 'accepted'). Negative outcomes include no further response from the customer.	M	-	No target set
Percentage of homelessness approaches that are prevented or relieved. The percentage of homelessness approaches that are prevented (pro-active action providing people with the ways and means to address their housing and other needs to avoid homelessness) or relieved (re-active action taken to help resolve homelessness).	M	-	No target set
Total number of households in leased/B&B accommodation. The number of households that are residing in leased or B&B accommodation. There is a statutory obligation to provide temporary accommodation and this measure allows us to monitor the severity of received homelessness cases. This is the total number of household's places in leased temporary accommodation and the number of households in B&B accommodation.	M	-	No target set
Number of households placed in leased temporary accommodation. The number of households that have been placed in leased temporary housed within appropriate accommodation. At the moment this accommodation relates to Cross Street, Gainsborough	M	5	5
% of households spending 56 nights or more in leased accommodation *amended* The percentage of households that spend 56 nights or more in leased accommodation. 56 nights is the relief duty of the homelessness service as set by Government legislation. At the moment this accommodation relates to Cross Street, Gainsborough	M	-	No target set
Number of households in bed and breakfast accommodation. The total number of households that have been placed in temporary B&B accommodation during the reporting period	M	-	No target set
% of households spending 35 nights or more in bed and breakfast accommodation *amended* The percentage of households that spend 35 nights or more in bed and breakfast accommodation. 35 nights is the maximum number of nights a household should stay in B&B accommodation based on best practice/government advice and the homelessness code of guidance states that B&B is unsuitable for families with children for any period of time	M	-	No target set

Measures to be amended

Measure	Reason for non-inclusion
Number of nights spent in temporary accommodation	Measure removed and replaced with “% of householder that spend 56 nights or more in leased accommodation” as this is more meaningful. The variation in the cases can lead to one household skewing the figures whilst the proposed new measure gives the service the information to learn and improve as well as greater assurance to stakeholders.
Number of nights spent in bed and breakfast accommodation	Measure removed and replaced with “% of householder that spend 35 nights or more in B&B accommodation” as this is more meaningful.
