

APPENDIX 3

CAPITAL INVESTMENT STRATEGY 2025/26 – 2029/30

1. Introduction

The Council is required to approve a Capital Investment Strategy in accordance with the Prudential Code for Capital Finance in Local Authorities.

The Capital Investment Strategy provides a high-level overview of how capital investment, capital financing and treasury management activity supports the provisions of services. It considers associated risks and how they are managed and ensures that future financial implications are identified to inform future year's budgets and financial sustainability.

The Strategy forms part of the Council's overall Corporate Planning Framework. It provides a mechanism by which the Council's capital investment and financing decisions can be aligned with the Council's corporate priorities and objectives over a medium term (five year) planning horizon and ensures that the revenue implications of investments are both affordable and sustainable.

The strategy provides a framework for determining the relative importance of individual capital projects. It defines how the capital programme is to be formulated, and it identifies issues and options that influence revenue and capital spending and sets out how the resources will be managed.

Key elements of the strategy.

- Ensures investments meet our Corporate Plan objectives
- Incorporates the requirements of the Asset Management Plan
- Enables the development of a Capital Investment Programme over the medium term (5 years)
- A framework which will identify priorities for the use of resources for investment.
- Decisions are based on sound business cases.
- Risks are identified and mitigated where possible
- Directly links to the Treasury Management Strategy ensuring an affordable and sustainable Capital Investment Programme in adherence to legislation and the Prudential Code.
- Informs the Medium-Term Financial Plan by identifying the revenue impacts of investment decisions.
- Incorporates an annual review to ensure the programme still meets our priorities.
- Considers innovative solutions to funding.

1. Principles Supporting the Capital Investment Strategy

a) Strategy Principles

- The investment programme will support the Council's strategic priorities, therefore, the capital investment programme will link to all key strategic planning documents: specifically the Corporate Plan, Executive Business Plan, Medium Term Financial Plan and the Asset Management Plan.
- Schemes within the programme will be prioritised on an authority wide basis and the process of assessing investments, against specific criteria, will optimise the benefit and relative importance of potential schemes.
- Responsible Investing (RI) - investing in opportunities that seek to generate both financial value and sustainable growth,
- Socially responsible investing (SRI), also known as sustainable, socially conscious, "green" or ethical investing (ESG), as well as any investment strategy which seeks to consider both financial return and social good.

b) Capital Investment Policy

The Capital Investment Strategy will be underpinned by a Land and Property Investment Policy. The policy does not describe detailed operational investment activity but does describe the framework, and principal [underlying] considerations, which the Council will follow when reviewing and subsequently agreeing investment opportunities. It is designed to support the goals and objectives as outlined in the Corporate Plan, the general objectives of a UK public sector service provider and the very specific aims; goals and aspirations of the Council members; executive officers and their teams.

c) Finance Principles

- The overarching principal is the commitment to achieve affordable capital investments over the longer term.
- To pursue all available external funding options and opportunities for leverage of external resources.
- Ensure evaluation for value for money investments by whole life costing (where applicable) and by having robust Business Cases with full financial modelling, and appropriate due diligence in estimates in order to inform the full financial implications
- To develop partnerships, including the pursuit of shared services, joint ventures and community arrangements, where appropriate, to achieve the Council's investment aspirations and value for money.
- Monitoring and evaluation of approved budgets will form part of the quarterly budget monitoring reports.
- Monitoring and evaluation of approved Programmes and projects will form part of Performance Management.
- Encourage community engagement by informing on priorities and consultation on proposals.
- To invest in non-treasury activities to support ongoing sustainability in the delivery of services.

- Regularly review Business Cases as schemes are developed and update financial models to inform future budget impacts.
- d) Asset Management Principles

The Asset Management Policy ensures that.

- We will take all reasonable and practical steps to ensure the health, safety and wellbeing of staff, visitors and contractors who use or visit our buildings, land or property and who use or are in contact with supporting asset infrastructure.
- We will ensure that all our buildings and land and property assets are fully compliant with current legal requirements, are fit for purpose and managed and maintained in accordance with best practice.
- We will ensure that infrastructure supporting our physical assets is safe and fully compliant with relevant legislative and regulatory requirements.
- All activity on our assets will be carried out in compliance with relevant legislative and statutory requirements.
- We will assess asset related risks and manage such risk in accordance with our corporate risk management policy or in accordance with procedures relevant to the specific asset, its use and function.
- We will retain and/or acquire physical assets which are appropriate to our business and function and dispose of those assets which are not fit for purpose, or which cannot support our business or investment criteria.
- We shall continue to actively develop our asset management systems; processes and procedures in a way which is appropriate; efficient; transparent and sustainable and which supports the best management outcomes for our physical assets.
- We shall continue to train and develop staff across the asset management discipline and apply technology and innovation where practical.
- We shall seek continual improvement of our management capability and activities to ensure value for money for all stakeholders.

3. Capital Investment Priorities

The Council's proposed Capital Investment Programme 2025/26 will support the Corporate Plan's key themes.

- Our People – Health and Wellbeing, Leisure, Skills, Vulnerable Groups and Communities
- Our Place – Economic Growth, External Investment, Social Regeneration, Infrastructure, Enhanced Environment
- Our Council – Finances, Structures, Partnerships, Policies, Governance

The Council's financial planning process ensures that the decisions about the allocation of capital and revenue resources are taken to achieve a corporate and consistent approach. The key corporate documents and relevant linkages with this strategy include.

- The Corporate Plan – priorities for the medium term
- The Medium-Term Financial Plan - incorporates the Financial Strategy, revenue budget financial impacts of capital investment decisions.
- The Reserves Strategy- prioritises the use of reserves for capital and revenue purposes.
- The Treasury Management Strategy (including Investment Strategy) informs the affordability and sustainability of prudent investment decisions.
- The Commercial Portfolio Strategy – informs how acquisitions of investment properties will be made on a risk-based approach
- The Value for Money Strategy – Ensuring VFM is achieved from investment decisions.
- The Housing Strategy – Supporting housing growth and regeneration within the district.
- The Land and Property Investment Strategy -
- The Asset Management Policy – Investment needs of our own land and property holdings
- Service Plans – Investment need for delivery of quality services

4. The Capital Investment Strategy Process

The strategic approach to revenue and capital investment decisions needs to be formalised to ensure that our resources are directed to the most appropriate schemes which both deliver our corporate priorities, and which are based on sound business cases. Assessment and prioritisation of capital investments schemes are based on uniform criteria.

Therefore, the Capital Investment Strategy Process has been developed which will ensure that prioritisation of investments is directed to deliver Corporate Objectives and delivery of the Executive Business Plan and Service Business Plans in addition to generating returns to support delivery of core services.

The process for includes:

- Review existing Capital Programme, timing, budget requirements etc.
- Annual review of existing Projects
- Asset Management Plan – detailed costs of required investment in property portfolio and property assets to be disposed.
- Review of asset replacement programmes
- Consideration of financing availability i.e., Earmarked Reserves, Grant funding, Capital Receipts and Prudential Borrowing
- Business Planning – identifying new schemes and projects for evaluation both capital and revenue.
- Evaluation of all proposed schemes against scoring matrix.
- Consider core service funding requirements and opportunities to invest in non-Treasury assets to generate returns

The final approved Capital Investment Programme and its financial implications are included within the Medium-Term Financial Plan, submitted to the Council annually in March for approval.

Fully costed and appraised business cases for each scheme will be presented to a relevant Board for consideration prior to any decision being made.

The Capital Programme consists of 4 levels of activity.

- Pre-Stage 1 – Business Case in preparation
- Stage 1 – Budget approved – requires full business case
- Stage 2 – Business case approved in principal or awaiting funding
- Stage 3 and Business as Usual (BAU) – Approved to spend and funding secured

The investment and the ongoing revenue implications of each scheme are ascertained from the financial implications and appraisals within the business case.

The Capital Investment Value is assessed against the capital definition, and deminimis limits (£10k).

Revenue Implications – include the impact on revenue budgets for running costs/additional staffing etc. and the impact of the cost of borrowing or loss of investment interest if capital receipts and revenue reserves are to be utilised.

5. Governance of the Capital Investment Programme

In accordance with the Constitution and governance arrangements, the Council reviews its capital requirements and determines its Capital Programme within the framework of the MTFP and as part of the annual budget process. Resource constraints mean the Council continually needs to prioritise expenditure in light of its aims and priorities and considers alternative solutions.

To ensure that available resources are allocated optimally, capital programme planning is determined in parallel with service and revenue budget planning processes within the framework of the MTFP.

New programmes of expenditure will be appraised following a clearly defined Business Case gateway process.

The Council will approve in principle the Capital Investment Programme, and will approve the release of funding for replacement and renewal programmes. This is undertaken annually in March as part of budget setting and the approval of the Medium-Term Financial Plan.

The Governance and Audit Committee will provide assurance on this Capital Investment Strategy.

Corporate Policy and Resources Committee will be responsible for approving release of funding for the Capital Investment Programme and will therefore receive reports for each scheme detailing the business case, cost, proposed funding and revenue implications.

Corporate Policy and Resources Committee will receive quarterly monitoring and update reports which may include details of.

- New capital investment schemes
- Slippage in programme delivery
- Programmes removed or reduced
- Virements (budget movements) between schemes
- Revisions in spend profile
- Overspending
- Capital acquisitions and disposals
- Loan advances and outstanding loan balances

Progress on specific programmes will also be monitored in relation to projects through the Performance Monitoring reporting framework.

The Programme Board will receive monthly highlight reports

The Management Team will receive quarterly monitoring reports and any exception reporting.

Budget Managers will receive monthly monitoring reports.

6. Capital Financing

The funding of Capital schemes can come from a number of resources, the use of external resources will take precedent.

- Prudential borrowing
- Revenue contributions and Earmarked Reserves
- Capital Receipts
- External grants and contributions (including S106 and Community Infrastructure Levies (CiL))
- Leasing
- Other sources – i.e., partnerships or private sector involvement

This strategy, the outcomes of which will inform the MTFP, is intended to consider all potential funding options available to the Council and to maximise the financial resources available for investment in corporate priorities and service provision and improvement.

To deliver our strategic objectives, especially in relation to economic and housing growth, regeneration, in addition to investment in commercial property, which is designed to provide a revenue return, significant levels of investment will be required, which will result in a borrowing need.

7 Prudential Borrowing

The Council has discretion to undertake Prudential borrowing to fund capital projects with the full cost of that borrowing (interest and minimum revenue provision) being funded from Council revenue resources and/or capital receipts. This discretion is subject to complying with the Code's regulatory framework which essentially requires any such borrowing to be prudent, affordable and

sustainable. Prudential borrowing provides an option for funding additional capital development however it has to be funded each year from within the revenue budget and by generating additional ongoing income streams from the investment.

Given the pressure on the Council's revenue budget in future years, prudent use will be made of this discretion in cases and only where there is a clear financial benefit, such as "invest to save", "invest to earn". Consideration will only be given to commercial investments where returns are expected to be higher than the revenue costs of the debt, provision of loans where principal repayments will be utilised as proxy for MRP, borrowing or major regeneration schemes which do not increase revenue expenditure levels in the longer term but provide a beneficial economic and or social impact.

The Council will remain cautious and prudent in the extent of prudential borrowing undertaken to fund new capital investment.

Where prudential borrowing is utilised to fund Capital Investment, financial implication considerations will be provided including the risks and opportunities of the investment over both the payback period and over the repayment period of any debt taken out.

8 Revenue Contributions and Earmarked Reserves

Our continued prudent approach is to set aside revenue resources to fund capital replacement programmes and asset management funding.

New Homes Bonus Grant will continue to be set aside for the purpose of investment in growth and regeneration (economic and housing) and this strategy has been included in the MTFP.

We will consider future Earmarking of Reserves for service investment needs, invest to save and invest to earn projects and enhancements to our own property assets, in addition to consideration of revenue contingencies, volatility and budget smoothing.

Our own resources will therefore be utilised to fund those schemes which provide a Socio-Economic return on investment, invest to save schemes which achieve efficiencies, and investment in our operational service asset needs.

9 Capital Receipts

Capital receipts generated from the following sources and where appropriate utilised as detailed.

- Loans principal repayments – used to repay prudential borrowing
- Receipts from Asset Disposal (operational property assets or surplus land)
- Commercial Portfolio Properties – repayment of borrowing

- Share of RTB Housing Transfer Agreement – future investment
- Insurance settlements – replacement of asset

10 External Grants and contributions (incl S106 and Community Infrastructure Levy (CiL))

The Council will actively pursue grants and contributions and other innovative solutions to funding of capital investment schemes. This funding will be utilised in the first instance.

11 Leasing

The use of leasing will be undertaken where alternative funding is not available for vehicles or minor equipment and the revenue budget does not allow for a full capital repayment. Where there is a robust business case then the option of leasing may be considered.

12 Other Sources of Funding

There are a range of other potential funding sources which may be generated locally either by the Council itself or in partnership with others i.e., a growing number of private organisations are showing interest where clear joint benefits exist. Each case will be subject to specific financial appraisals and appropriate governance arrangements.

13. Investment in Commercial Properties (Non-Treasury Investments)

Any acquisition of Commercial Properties will be in accordance with the Commercial Portfolio Strategy and are being acquired to support delivery of services in a financially sustainable organisation. Up to £30m has been approved for investment in Commercial Property in support and protection of Council Services.

Appropriate experts are engaged as required.

All assets will be assessed against a set criteria and the Chief Executive and the Leader of the Council have delegated Authority to complete on the acquisition of assets which score 50 or more out of 70. Any asset which falls below this threshold or registers a zero against any criteria may still be considered but specific justification will need to be provided and the decision to proceed taken to the Corporate Policy and Resources Committee for approval.

An annual review will be undertaken of the Commercial Property Portfolio to ascertain whether its fair value is sufficient to provide security against loss against the capital investment, and therefore adequate to meet the cost of outstanding borrowing.

Under the Minimum Revenue Provision (MRP) Policy, there will be an annual MRP charge for borrowing undertaken to finance Commercial Properties in line with the latest guidance from MHCLG.

A Valuation Volatility Earmarked Reserve has been created with a balance of £0.733m which reflects 4% of purchase price of the portfolio, which will reduce over the medium term, reflecting the introduction of an annual MRP charge to reduce outstanding prudential borrowing. This will help mitigate any financial loss of investment upon the sale of an asset should there be any shortfall against outstanding debt. A proportion of the annual revenue income generated from the investment will be allocated for risk provision.

A Commercial Contingency revenue base budget is also included within the MTFP to mitigate the risk of not achieving the desired level of yield from the Portfolio in year.

These investment assets are not deemed to be liquid over the short term but are likely to be held for the medium term of 5-10 years.

A number of prudential indicators in relation to these investments are contained within the Treasury Management Strategy and will be monitored throughout the year.

14. Risk

All capital projects have a risk register, with all risks affecting the project considered.

A specific risk of capital investment is the impact on the Council's VAT partial exemption (recovery of exempt VAT up to 5% of overall VAT). If exempt VAT exceeds 5% the whole amount is then irrecoverable. Each scheme is therefore assessed for its impact

15. Conclusion

The Capital Investment Strategy is a working document, which enables the Council to make informed rational capital investment decisions to achieve its corporate priorities and objectives. It provides a framework for determining the relative importance of individual projects.

The strategy will be reviewed annually to ensure that it remains relevant and effective.
