Foreword

“ It’s time for Engineering in Gainsborough to stop being the town’s best kept secret!

Key engineering companies, who are passionate about developing people, skills and opportunities have formed a group called ‘Made in Gainsborough’.

As chairman of the group, I firmly believe this could be the seed that grows into the solution for long-term economic sustainability.

Gainsborough has a wealth of companies who design and manufacture solutions to some of the world’s engineering needs.

Together we have a number of job vacancies and we want to fill them with people who care about the town and want a chance to earn and learn and want to develop a career in the industry.

”

Paul Cook
Operations Director for Wefco
&
Chairman of Made in
Gainsborough

For advice or information, please contact Amanda Bouttell on 01427 676562 or amanda.bouttell@west-lindsey.gov.uk

Made in Gainsborough: A Local Engineering Group

Did you know:

96% of teachers said that they would recommend a career in engineering to their pupils.

108,000 people started an engineering apprenticeship in 2017 - the UK's highest record.

Engineering continues to be a key sector for employment within West Lindsey and in Gainsborough in particular. 'Made In Gainsborough' aims to provide information about the Engineering businesses that are located here and to highlight the employment options that are available for those aged 16+.

There is a real opportunity to:

- Earn while you learn
- Progress into actual jobs
- Choose your future career

A. Schulman

We will encourage your development - you'll earn and learn whilst enjoying a rewarding job and gain experience.

**Ben Dickson,
Plant Manager**

At A. Schulman, we are trusted to be in control of our own workload. When I started as an apprentice seven years ago, I was given all the help I needed whilst still being given creative freedom.

The management is great - I enjoy working here!

Connor Pew, 26

Our definition of success is helping you achieve yours!

A. Schulman is a forward thinking company that offers a great atmosphere as well as job security. You'll get to meet a variety of people working here and we are always evolving and developing.

Want to work for us?

We have apprenticeship and internship places and offer opportunities for work experience.

Number of employees: 4,900 employed by the company globally. 77 people in Gainsborough.

Key customers: Lego, John Deere, Kingspan Environmental.

Did you know

The Gainsborough factory opened in 1989 but A. Schulman also operates facilities in North America, Latin America, Europe, Middle East, Africa and Asia-Pacific regions.. This factory creates more than 21,000 tonnes of production per year (that's equivalent to over 5000 African elephants!)

“ Gaining experience and earning while you learn is a great thing about apprenticeships.

At A. Schulman you are allowed the freedom to be creative and are encouraged to learn and grow.

Andy Bone, 21

”

AMProse

We employ hard working, competent and committed individuals who take pride and satisfaction from working to the highest standards.

Want to work for us?

We are looking for apprentice designers, mechanical fitters, electricians, software engineers and machinists. We offer opportunities for work experience.

“ I joined AMP Rose as an apprentice three years ago. They really helped me with my college work whilst I was learning my trade.

Charlie Mann, 21 ”

Encouraging personal development

to allow employees to reach their individual goals whilst contributing to the excellence of the team.

AMP Rose is an interesting place to work; we offer a large variety of different roles.

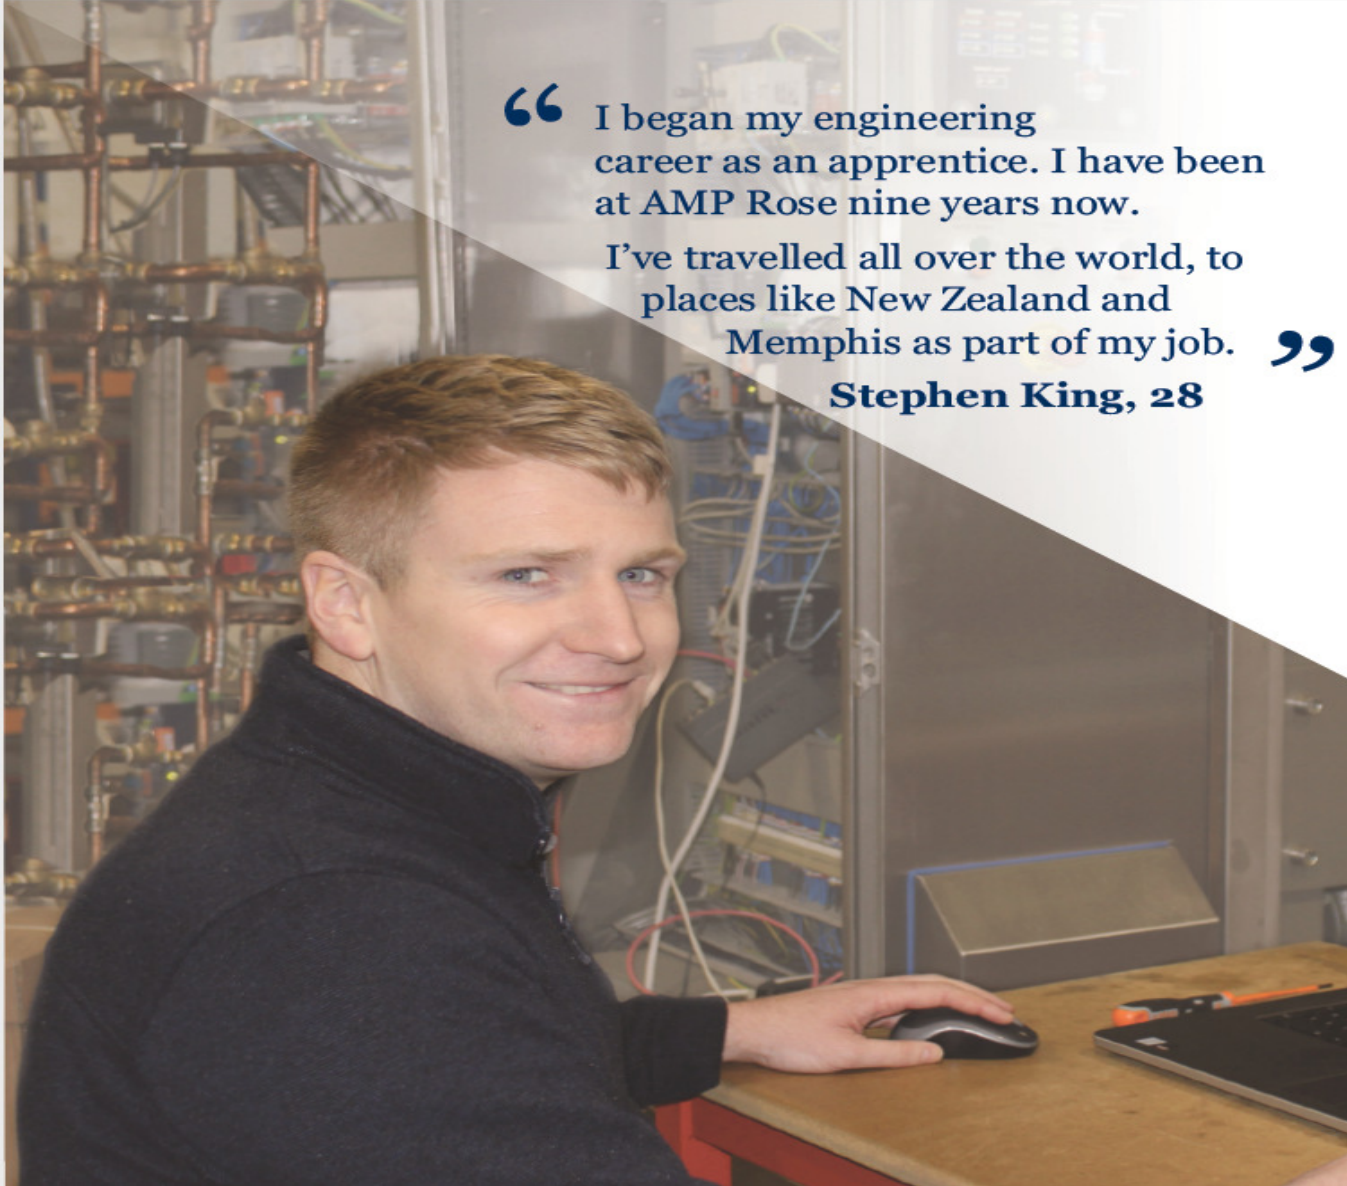

There are fantastic opportunities - we offer the chance to travel all over the world

We support our apprentices throughout their entire careers; into further education or into a new role within the company.

There is always room to grow and progress at AMP Rose.

**Andrew Mann,
Production
Manager**

“ I began my engineering career as an apprentice. I have been at AMP Rose nine years now.

I've travelled all over the world, to places like New Zealand and Memphis as part of my job. ”

Stephen King, 28

No. of employees: 115

Key customers:
Cadbury's, Thorntons,
Nestle, Walkers Crisps,
Swizzels.

Did you know

You are likely to have seen our work in action before. Our machines made up part of the set for the movie 'Charlie and The Chocolate Factory' featuring Johnny Depp.

CLEAN TECH

A PLASTIPAK COMPANY

“ The engineers here are friendly and helpful. People are always willing to help and point you in the right direction. The factory is in a great location, close to both Lincoln and Gainsborough.

Matt Bruce, 21 ”

Europe's leading PET bottle recycler, producing recycled material for new bottles

Recycling is a growing and important market. We are continuously investing in our factory as well as our employees to ensure our position as market leader. Our people are our best asset, and we encourage further education to further enhance your personal and practical skills gained whilst working with us

**Melvyn Wain,
Engineering Manager**

“ We have the option to go on to higher education through the company, which is great! It allows us to progress within engineering.

Clean Tech is a great place for apprentices as there is such a variety of work and so much to learn!

Ryan Kirk, 20

Clean Tech is a very green business, we take waste packaging and turn it into something clean and reusable. We give our employees opportunities to progress from smaller roles into management positions with a focus on development.

Want to work for us?

Part of the multinational packaging group, Plastipak, we are looking for people to join our workforce. Our four year apprenticeship scheme provides opportunity for people who are keen to progress within the company. We offer two apprenticeship placements per year.

Number of employees: 140

Did you know: This is the biggest factory of its type in Europe.

Exhaust emissions engineering for cleaner air.

We are a leading European designer and manufacturer of exhaust and emission control systems for heavy duty vehicles and equipment. We have a reputation for engineering excellence; our products are made to the highest standards.

Want to work for us?

We are looking for test cell engineers, designers, manufacturing engineers and tool shop engineers. We have apprenticeship and Traineeship places and we offer work experience opportunities.

“ I started as a technical apprentice and have worked my way up to a senior test engineer. I had the flexibility to move around the company, trying out different roles whilst studying. You'll learn all aspects of the business. ”

Nick Hobson, 24

“ I’m really enjoying my tool making apprenticeship. I have had the chance to try out a variety of tasks within my role. It’s great to be able to make something from nothing and to see your finished product at the end - it’s very rewarding.

Ewan Tomlinson, 16 ”

At Eminox, we have the ability to provide young workers with a well-rounded introduction and progression into an engineering career. This allows them to earn whilst they continue to learn. They get to experience each aspect that the business has to offer so that they can find the career path that suits their skills and needs.

**Mark Runciman,
Managing Director**

Number of employees: 260

Key customers: Iveco, Caterpillar, Volvo, Arriva, Go Ahead Group, GeoCisa, Balfour Beatty and more.

Did you know

Eminox designs and manufactures emission reduction systems in Gainsborough, which have helped provide cleaner air in polluted cities across the world.

**A combined experience
of over 100 years in the field.**

Our apprentices have the opportunity to become highly skilled workers, learning from some of the highest skilled engineers in the town.

**Richard Marshall,
Managing Director**

“ I’m really enjoying my apprenticeship - welding is a great thing to learn and I’m hoping to do it as a long term career.

There is a great atmosphere at Hooton Engineering. ”

14

**Connor
Sargent, 16**

Our production ranges from the smallest of boxes to the largest pharmaceutical vessels and stairs - there is lots of opportunity to produce new and innovative products.

Want to work for us?

We have apprenticeship and traineeship places and offer work experience opportunities.

We are looking for fabricator welders and machinists.

“

Being a machinist is an opportunity to manufacture new and innovative parts for machines. It's a challenging environment and it's great to be able to create something from nothing - it's really rewarding. The skills you learn can take you anywhere in the world.

Craig Thompson, 21

”

Number of employees: 40

Key customers: Hovis, Premier Foods, Kerry Ingredients..

Did you know: Ron Hooton invented the cauliflower floretter. This made it easier to go from field to plate with less human contact.

REGAL

**We create a better tomorrow by efficiently
converting power into motion.**

“ I really enjoy it here, Regal is a good company to work for. They really look after you and the people are great

”

**Emily
Eatock,
21**

Our people are energised and engaged in their work and are empowered to accomplish our objectives. Together we work as a team to make Regal successful.

**Richard Stephens,
Technical Services
Manager**

“

This is a great place to work, its a really nice environment. I have been here five years now and I love it!

”

Jarrold Dargan, 25

Number of employees: 80

Did you know: Regal is headquartered in Beloit, Wisconsin, and has manufacturing, sales and service facilities throughout USA, Canada, Latin America, Europe and Asia.

We are a leading manufacturer of electrical motors, electrical motion controls, power generation and power transmission products serving markets throughout the world.

Want to work for us?

We have apprenticeship and graduate placements and offer work experience opportunities.

Opportunities for trainees would include maintenance fitters (electrical and mechanical), design engineers, production engineers, team leaders and technical sales engineers.

We raise the quality of manufactured equipment and services by the use of modern equipment & qualified staff.

Trepko's products are all made in house, from the designing to the manufacturing - we do it all right here!

Want to work for us?

We have apprenticeship and graduate places. We also offer work experience opportunities.

“ Trepko is a great company to work for, they really invest in you and encourage your learning. ”

Billy Thorpe, 17

“ I am enjoying my apprenticeship at Trepko. We are given responsibility and are treated the same as everybody else on the shop floor. ”
Luke Grundy, 17

In Gainsborough, there is a good growth of engineering companies. Trepko offer a broad range of products within our portfolio. We can support you through further education, and we want to encourage your growth to allow you to have a great and successful career with us.

**Mark Grundy,
Managing Director**

Number of employees: 50

Did you know: Trepko have over 70 years experience in the manufacturing industry and have customers in more than 120 countries across the world.

We want to leave a positive legacy

Leaving school isn't the end of education - at Wefco, we will support you to fulfil your potential and arm you with the skills you need to succeed.

Paul Cook
Director

“

We're all a big family here at Wefco - all working together to help each other achieve our best. You gain a lot more than a trade here, you get valuable life skills too. Things aren't always easy as a female in a male dominated environment, but here I'm treated as an equal and can do anything a guy can do!

”

Lydia Uttley, 20

Established in 1971, Wefco (Gainsborough) limited prides itself on its solid reputation in the industry and commitment to their workforce and supporting young people at the beginnings of their career.
