

Waste Strategy Public Consultation - Closes 2 July 2018

The Joint Municipal Waste Management Strategy (JMWMS) sets out how the organisations which form the Lincolnshire Waste Partnership (LWP) will work together to deliver waste management services which protect the environment and provide value for money.

The aim of this survey is to invite feedback from anyone with an interest in our waste services, and will be considered in finalising the JMWMS before it is adopted by each LWP council.

In completing this survey, please note that the JMWMS provides a strategic overview rather than making proposals for specific changes to services. Any comments you wish to make regarding specific services, such as bin collections, should be made directly to your local council through their normal means of communication.

Please read the strategy before completing the survey or look at the summary document, which will help you to answer the questions. You can find this online at: <https://www.lincolnshire.gov.uk/recycle-for-lincolnshire/waste-strategy-for-lincolnshire/>

Alternatively, you can request a paper copy:

- Email: wastestrategy@lincolnshire.gov.uk
- Phone: 01522 782070

Some of the questions refer to the Environmental Report which has been prepared to accompany the Strategy. You can access this document in any of the same ways as the JMWMS itself.

Our vision is "to seek the best environmental option to provide innovative, customer-friendly waste management solutions that give value for money to Lincolnshire".

5. Do you agree or disagree that the objectives we have set out will enable us to meet the challenges we face and therefore achieve our vision?

You can find information about this here:

- *Summary – Section 1.4*
- *Full Document – Chapter 6*

- Strongly agree
- Agree
- Disagree
- Strongly disagree

Why have you answered this way?

Members feel the Objectives are too vague and lack targets. They question how success will be measured when most targets have 'consider', 'explore' or 'seek to', rather than 'have a common set of recycling materials by???' or 'improve the quality of recycle' by how much and by when?. Members wish to have sight of the proposed Action Plan which will support achieving these Objectives.

6. Do you agree or disagree that our Forward Plan, as described in Chapter 7, contains all the actions we need to achieve our objectives?

You can find information about this here:

- *Summary – Section 1.5*
- *Full Document – Chapter 7*

- Strongly agree
- Agree
- Disagree
- Strongly disagree

Why have you answered this way?

Whilst the Forward Plan covers most themes, it appears very aspirational with a lack of identified actions. The proposed Action Plan needs to be considered in order to appraise the effectiveness of the Forward Plan.

7. Do you have any specific concerns about the strategy?

- Yes
- No

Please tell us what concerns you have.

As described in earlier responses, members feel the Vision and Objectives are too generic, will fail to drive ambitious solutions and make it impossible to measure success.

Your responses will be kept completely confidential and in accordance with the Data Protection Act 1998. Our aim is to not be intrusive and we will not ask irrelevant or unnecessary questions.

The Equality Act 2010 places organisations under a duty to ascertain how people with 'protected characteristics' are impacted by an organisations activity and how steps may be taken to mitigate or eliminate adverse impact(s).

If you have identified a potential impact, how would the proposed strategy impact you (or someone you care for or support) and how could any negative impacts be reduced?

Changing collection methodology could have an impact on older people, those with disabilities or those who are pregnant. Without understanding the possible changes, its not possible to determine whether these changes would be positive, negative or neutral.
